

## **Anwar SABIK**

Project Coordinator (Special and National Projects) | **February, 2014 - Present**

[as@iccrom.org](mailto:as@iccrom.org)

Anwar currently works as a Coordinator (Special and National Projects) at ICCROM-ATHAR Regional Conservation Centre in Sharjah. He obtained his Master's degree in Architectural and Urban Conservation from *Centre des Hautes Etudes de Chaillot* and

completed his undergraduate studies in Architecture at the University of Damascus. He followed training programmes in conservation in France, and was participant in the early courses of ICCROM- ATHAR Programme in Syria, Lebanon, Jordan, and Sharjah. He worked as lecturer in the Master's Programme in Conservation run in partnership with the *Centre des Hautes Etudes de Chaillot* in Damascus University, where he was especially involved in teaching the techniques of documentation (Photogrammetry), structural analysis and the preventive consolidation of old buildings. Experienced in the field of Architectural conservation (Architectural documentation, 2D, and 3D & DSM Photogrammetry), he worked in different conservation projects in Syria run by the Directorate General of Antiquities and Monuments in cities such as Bosra, Philippopolis, and Syrjilla. He also worked on projects in the Old City of Damascus with GIZ (*Deutsche Gesellschaft für Internationale Zusammenarbit*), as well as projects with PNT (*Petra National Trust*) and MAM (*Municipal Administration Modernization Program*).
