

1. INTRODUCTION TO ARCHITECTURAL DOCUMENTATION FOR BUILT HERITAGE

Dates: 21-25 May 2017

Place: ICCROM-ATHAR Regional Conservation Centre in Sharjah, UAE

Course Partners:

- ICCROM, through its ICCROM-ATHAR Regional Conservation Centre in Sharjah, UAE
- Government of Sharjah, United Arab Emirates

Background and Aims

The “Introduction to Architectural Documentation for Cultural Heritage” module of the ICCROM-ATHAR Regional Conservation Centre in Sharjah aims at enhancing applied knowledge in architectural records for conservation in the Arab region, providing the basic understanding of how to make and manage documentation, as well as the hands-on experience that will help make informed decisions that ensure the protection of cultural heritage sites.

Module Objectives and Expected Results

The module consists of interactive, participatory sessions, both theoretical and practical. Study visits and applied work on sites will complement the work carried out in the classroom. The module aims at introducing the following topics:

- concepts of documentation and information gathering, recording and heritage information management;
- activities, methodologies and tools for recording, documentation, inventories and information management;
- addressing recording practice based on specific case studies; and,
- topography, photogrammetry, and 3D scanning techniques.

** (Participants are required to bring their own cameras if choosing to participate in this module.)

Module Fees: 600 US Dollars

Application Deadline: 20 April 2017

Please note that **any applications received after this deadline will not be considered.**
